Patricia A. Goins

AUG 25, 1960 - OCT 19, 2021

Patricia A. Goins, age 61 of Batesville, died Tuesday, October 19, 2021 at Margaret Mary Health. Born August 25, 1960 in Covington, Kentucky, she is the daughter of Laura (Nee: Schaffeld) and Charles Goins. She worked at Batesville Tool & Die.

Patti was an exceptional cook and her family loved her green bean casserole, apple spiced cake and black brussels sprouts.....at least until someone threw the recipe away. She also liked to travel and often would return to Grundy, Virginia for reunions at the Mountain Mission School. Other interests included watching old black and white movies, sewing and quilting, painting, some gardening in earlier years and suffering the disappointments of being a Bengals fan. And according to her family, she was a HUGE Elvis fan. Family was important to Patti and no one would argue that her children and grandchildren were her life.

Patti is survived by her daughters Angela Norman of Cincinnati, Cassandra Goins of Batesville; sons Jeremia Goins of Cincinnati, David Vanover of Cleves, Ohio; sister Rose Flowers of Valley Village, California, Mildred Anderson of Brookville, Indiana; brothers John Goins of Holiday, Florida, Henry Gregory of Batesville; her soul mate Bill Huelsman of Batesville and six grandchildren.

A visitation will be held Thursday, October 28th from 5 – 7 p.m. at the funeral home. 10 a.m. Friday, October 29th a graveside service and entombment will be held at Crown Hill Cemetery in Cincinnati (11825 Pippin Road). The family requests memorials to Phi Beta Psi Sorority Cancer Research or the Mountain Mission School.

Patty had the biggest most caring heart. She cared for the sick and suffering and prayed for their return to sobriety. When she saw me for the first time sober, her whole face lit up and she praised me for what I had accomplished and been through. She is a strong woman and my prayers go out to every heart she reached 💜 she will be missed by many. RIP Patty

I loved my sister all of her life. I knew her longer than anyone in my life. She was the kindest and most selfless person I ever met. The last words I said to her were I love you and if you ask anyone who really knew her, they will probably tell you those were the last words they heard from her every time. My life is forever changed by being blessed to have her as my sister. To my sister: I loved you all of your life and I will miss you for the rest of mine.

My sister knew me longer than anyone else in my life. She was the kindest, most caring woman I knew. She ended every communication (text, call, messenger, etc.) with "I love you". She loved Bingo, cooking, Elvis! She loved her family and friends unconditionally. She would video chat without warning and I knew once I answered there would be a whole room of family and/or friends on the other end. I loved those video chats! Until we meet again my sister...I love you ❤️❤️❤️

I remember the first time I met Patty at work. My boss brought her over to me and introduced us and said show her everything you know, after about an hour I thought to myself she's not going to last a night. Well thank God I was wrong not only did she last but we became good friends. I remember one night my team leader and I was trying to teach her how to run a "big press" as she would call them and she wasn't quite catching on and she looked at me and said what. It was so hilarious how she said it and it became a saying in our group. And that woman was always cold! Even when it was 70 degrees! She would call me when we were on lock down just to ask how I was doing. Boy could she cook! I will miss her smile and awesome personality. One of the last things she said to me was I love you. I love you too Patty and I will see you in heaven one day until then I will always keep you in my heart. You guys are all in our thoughts and prayers. One more time Patty, WHAAAT 😊

Patti loved bingo and I loved when we could spend that time together. When our Mom was alive we would all go together and have a great time. She had a heart of gold and would do anything for anyone.
