“ I met Mr. Patrick Frey at IUPUI. He was the course-coordinator for the Math class I taught as a part-time instructor. I was amazed by his attention to details and organizational skills. He helped me setting up the details in CANVAS and provided all the information to make my teaching experience painless. During the semester, he provided timely information for the exams and grades. I am sure that he worked late hours and put in extra efforts for the convenience of instructors.

I sure will miss him. He has left ever lasting memories for me.

“ I will always remember Patrick and his creative "schemes" for encouraging students to attend class, engage with the mathematics, participate in class activities, and grow as mathematical thinkers. He was a sincere, dedicated educator, and a dear work friend/colleague. I will miss him. Rest in peace, friend.
